ABOUT US

SweatCoin is a project based on Stellar Blockchain empowering the crypto community with the ability to stabilize their portfolios by investing in real commodities. By helping developers, liquidity providers, and traders, Sweat™ enables all members of the financial ecosystem to take part in a liquid marketplace.

ACHIEVEMENTS

- Launch of the first **Sweat Coin (SWS)** on the Stellar Blockchain.
- Interest payments at a minimum of 150% APY with "Buy and Hold" method.
- Extended the platforms of selling our products on StellarTerm & Scopuly &
- Lumenswap & Lobstr & Stellarport.
Sold 2% of the entire supply of SWS and 0,5% of the entire supply of SWSB.

and many more to come...

GOALS

- **Launch more valuable Sweat Tokens!**
- **Improve our investors' portfolio!**
- **Create a Special Loyalty Program for our asset holders!**
- **Extend our activity through different business areas in order to attract the interest of big investors**

TOKENS

CONCLUSION

**The Sweat Coin Team wishes everyone
a fun journey diving into the Stellar
Blockchain and the financial freedom it
provides. We cannot wait to meet our
investors and asset holders closer and
reach an equilibrium in our portfolios!**

Sweat it up!
